2673 be determined by the commissioner to be in compliance with this  
2674 subdivision until October 1, 1993. As used in this subdivision,  
2675 "conspicuous" has the same meaning and characteristics regarding

2801 Sec. 136. Subsection (a) of section 22a-402 of the general statutes is  
2802 repealed and the following is substituted in lieu thereof (*Effective*

2804 (a) The Commissioner of Energy and Environmental Protection  
2805 shall investigate and inspect or cause to be investigated and inspected

2806 all dams or other structures which, in his or her judgment, would, by  
2807 breaking away, cause loss of life or property damage. Said  
2808 commissioner may require any person owning or having the care and  
2809 control of any such structure to furnish him or her with such surveys,  
2810 plans, descriptions, drawings and other data relating thereto and in

2813 owner and the commissioner access thereto. The commissioner shall  
2814 make or cause to be made such periodic inspections of all such  
2815 structures as may be necessary to reasonably insure that they are  
2816 maintained in a safe condition. If, after any inspection described  
2817 herein, the commissioner finds any such structure to be in an unsafe  
2818 condition, he or she shall order the person owning or having control  
2819 thereof to place it in a safe condition or to remove it and shall fix the  
2820 time within which such order shall be carried out. The respondent to  
2821 such an order shall not be required to obtain a permit under this  
2822 chapter or chapter 440 or section 22a-342 or 22a-368 for any action  
2823 necessary to comply with such order. If such order is not carried out  
2824 within the time specified, the commissioner may carry out the actions  
2825 required by the order provided the commissioner has determined that  
2826 an emergency exists which presents a clear and present danger to the  
2827 public safety and said commissioner shall assess the costs of such  
2828 action against the person owning or having care and control of the  
2829 structure. When the commissioner in his or her investigation finds that  
2830 a dam or other structure should be inspected periodically in order to  
2831 reduce a potential hazard to life and property, the owner of such  
2832 structure shall cause such inspection to be made by a registered  
2833 engineer at such intervals as are deemed necessary by the  
2834 commissioner and shall submit a copy of the engineer's finding and  
2835 report to the commissioner for his or her action. If the commissioner  
2836 determines as a result of an inspection that maintenance or repairs to a  
2837 dam are needed to maintain the dam in a safe condition, the  
2838 commissioner shall notify the owner, in writing, of such maintenance  
2839 or repairs as are necessary and request the owner to undertake such

2840 repairs within the time period specified in the notice. If the owner does  
2841 not undertake the necessary maintenance or repairs within the time  
2842 period indicated in the notice, the commissioner may proceed to order  
2843 the owner to undertake the necessary maintenance or repairs. [As used  
2844 in this chapter, "person" shall have the same meaning as defined in  
2845 subsection (b) of section 22a-2 and "water company" shall have the  
2846 same meaning as defined in section 25-32a.] The commissioner shall  
2847 cause a certified copy of a final order issued under this section to be  
2848 recorded on the land records in the town or towns wherein the dam or  
2849 such structure is located. As used in this chapter, "person" has the  
2850 same meaning as provided in subsection (b) of section 22a-2, and

2853 2014 supplement to the general statutes is repealed and the following  
2854 is substituted in lieu thereof (*Effective October 1, 2014*):

2855 (2) (A) If the commissioner is unable to determine the person or  
2856 municipality responsible for rendering the groundwaters unusable for  
2857 potable drinking water or if the commissioner determines that the  
2858 responsible persons have no assets other than land, buildings, business  
2859 machinery or livestock and are unable to secure a loan at a reasonable  
2860 rate of interest to provide potable drinking water, a water company  
2861 which has less than ten thousand customers and which owns,  
2862 maintains, operates, manages, controls or employs a water supply well  
2863 which is rendered unusable for potable drinking water, may apply to  
2864 the commissioner for a grant from funds established pursuant to  
2865 section 22a-451 or from the proceeds of any bonds authorized for the  
2866 provision of potable drinking water. If, upon review of the engineering  
2867 report required by this subsection to be submitted with an application  
2868 for such a grant, the commissioner determines that a grant to a water  
2869 company from available appropriations or from the proceeds of any  
2870 bonds authorized for the provision of potable drinking water is  
2871 appropriate, the commissioner may make such a grant in accordance  
2872 with regulations adopted by the commissioner pursuant to subsection

2873 (e) of this section.

2874 (B) The total amount distributed to a water company pursuant to  
2875 this subsection shall, as funds allow, equal fifty per cent of the cost of  
2876 the engineering report required by this subsection and fifty per cent of  
2877 the cost of the most cost-effective long-term method of rendering the  
2878 water supply in question usable for potable drinking water, as  
2879 determined by the commissioner and the Commissioner of Public  
2880 Health upon consideration of the required engineering report.

2881 (C) For purposes of this section, "water company" and "customer"  
2882 [shall] have the same [meaning as specified] meanings as provided in  
2883 section 25-32a.

2884 (D) Any water company applying for a grant pursuant to this  
2885 section shall prepare or have prepared an engineering report which  
2886 shall be subject to the approval of the commissioner and the  
2887 Commissioner of Public Health and include, but not be limited to, a  
2888 description in detail of the problem, area and population affected by  
2889 pollution of the groundwaters; alternate solutions including relative  
2890 cost of construction or installation, operation and maintenance; design  
2891 criteria on all alternate solutions and any other information the  
2892 commissioner deems necessary.
